Quotation verification

- Confirm the complete designation, suffix and marking photographs.
- Verify d, D, H, h, B, S, T and every mounting interface on the controlled drawing.
- Check radial and axial load, speed, shock, duty cycle, profile and lubrication.
- Agree inspection records, marking and packing scope before order.

Identification reference only. This sheet is not a controlled manufacturing drawing, interchange approval or batch inspection certificate. Final supply is governed by the confirmed quotation and controlled drawing.
