

Combined Bearing / Standard NbV 0-8 Matching Matrix

Bidirectional preliminary matching table for replacement bearings and U-profiles.

Profile	Article number	Replacement reference	Mass kg/m	Matched bearing class
Standard 0 NbV	113.010.000	JDG62	10.5	4.054 / 4.454
Standard 1 NbV	113.011.000	JDG70	14.8	4.055 / 4.455
Standard 2 NbV	113.012.000	JDG78	20.9	4.056 / 4.456
Standard 3 NbV	113.013.000	JDG89	28.6	4.058 / 4.458
Standard 4 NbV	113.014.000	JDG108	36.0	4.061 / 4.461
Standard 5 NbV	113.015.000	JDG123	42.8	4.062 / 4.462
Standard 6 NbV	113.016.000	JDG150	52.3	4.063 / 4.463
Standard 7 NbV	113.017.000	Replacement profile	65.2	4.064 / 4.464
Standard 8 NbV	113.018.000	Replacement profile	78.8	4.085 / PR4.085

Verification notes

- Confirm actual profile cross-section and bearing clearance.
- 4.059 and 4.060 are commonly associated with I-profile families rather than Standard U-profile NbV.
- Legacy JDG152 remains a separate heavy profile and is not relabeled as Standard 7.

Before ordering, confirm the current controlled drawing, suffix, mounting geometry, load case, lubrication, temperature and inspection scope.
